All prices incl. VAT. Every paid subscription starts with a 14-day free trial — once per account. Cancel anytime during the trial: no cost, no questions asked. **The Free plan does not include wallet passes — wallet starts with Solo.**

FALCONCARD FOR ENTERPRISE

FalconCard for **enterprise**

Custom solutions for large teams. SSO, API, custom integrations and dedicated support.

Who Enterprise is for

For organisations that roll out cards centrally, provision identities from their own directory and need the brand enforced rather than explained to every team.

When Enterprise instead of Teams: as soon as you need more than 50 cards or more than 5 members — or as soon as SSO, SCIM or API access is required.

WHY FALCONCARD ENTERPRISE?

- Unlimited cards & leads
- Full API access
- Live status monitor with 30-day uptime history
- Custom pricing
- SSO integration via SAML/OIDC
- CRM integration (Salesforce, HubSpot)
- Dedicated account manager
- Freely configurable: features and limits to fit

ENTERPRISE FEATURES

Single Sign-On (SSO)

Integrate FalconCard with your existing identity management — SAML 2.0 and OIDC supported.

REST API

Full API access for automated card creation, updates and integrations.

Custom integrations

Connect FalconCard with Salesforce, HubSpot and further enterprise tools on request.

Dedicated support

Personal account manager, priority support and guaranteed response times.

Live status monitor

Real-time availability for every component — not a static SLA claim. Web, API, DB and Wallet publicly visible.

Unlimited cards

No limits on cards, team members or features. Scales with your company.

Team activity log

Governance at a glance: who changed which card and when — logged without gaps for compliance and audits.

Brand enforcement & compliance report

Enforce your brand per area, see your team's brand quota and apply the brand to all cards with one click.

Member CSV import

Onboard entire teams in one step: import and invite members conveniently via a CSV file.

SCIM Provisioning

Employees are created, updated and deactivated on offboarding automatically from Okta, Microsoft Entra ID or JumpCloud — via SCIM 2.0, with no manual account upkeep.

Enterprise — On request

We reply within 24 hours. Or email us directly at hello@falconcard.net
